Overview

[Design Process](#)

[Website Structure](#)

[Wireframes/Final Design](#)

[Live Walkthrough](#)

[Learnings](#)

Design

- Demonstrate technical skills
- Highlight experience and interests
- For prospective employers
- Minimal design

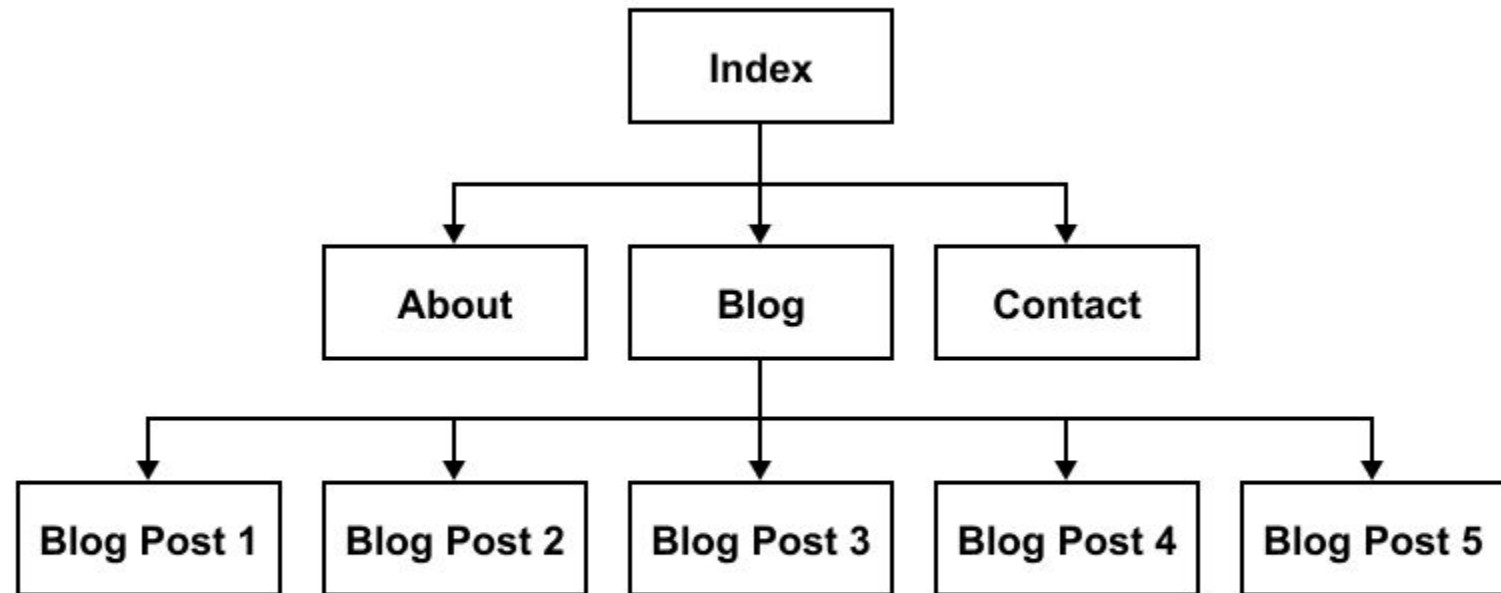

Development

- Wireframes - Outline of contents of pages
- Coding - Applying HTML and CSS to create the pages
- Deployment - final launch of live website

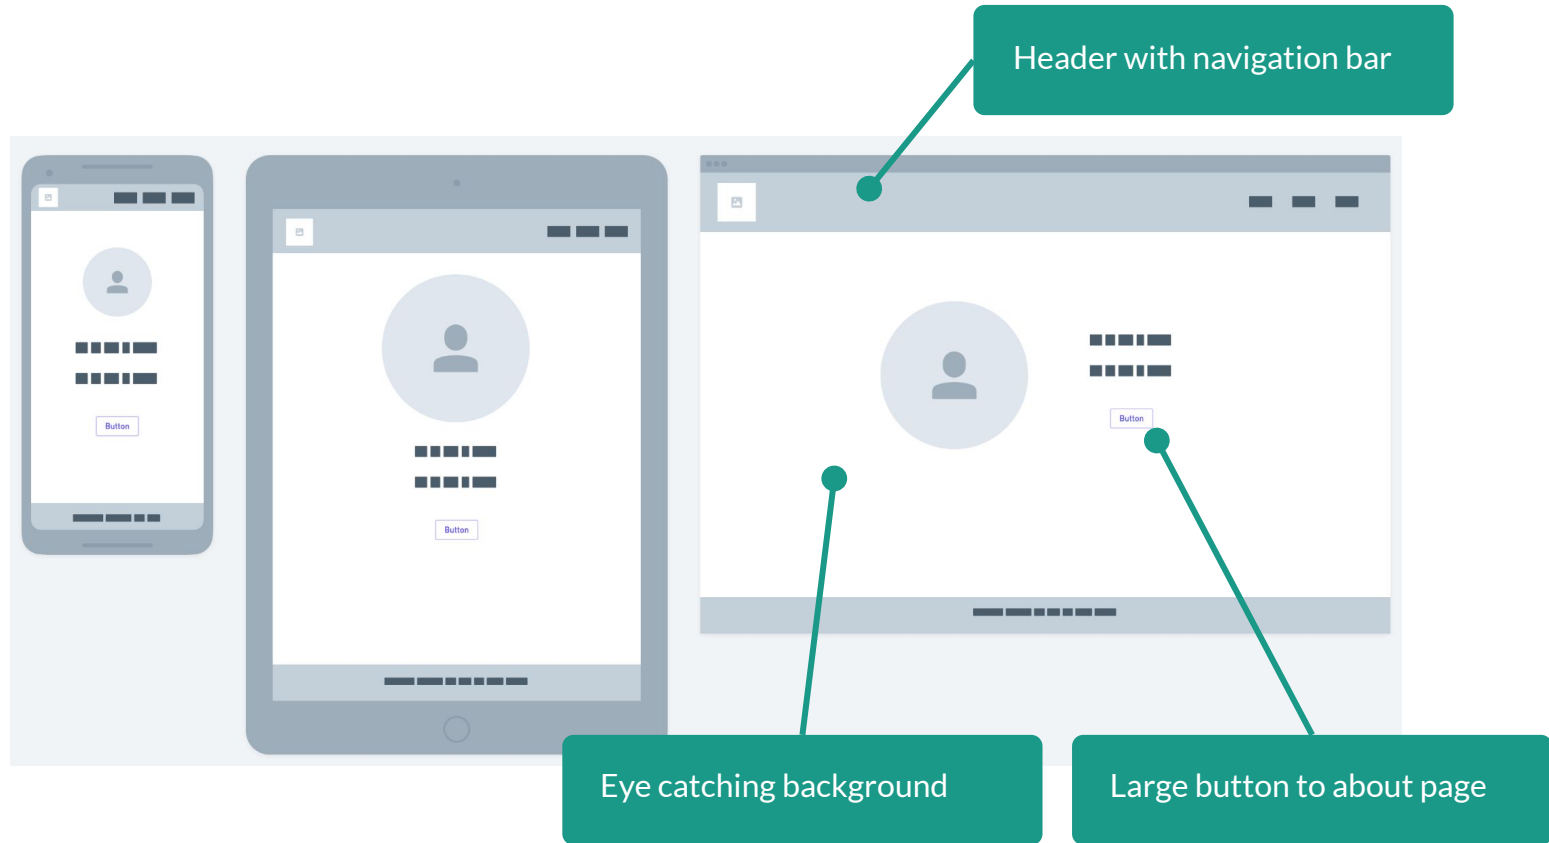

Components

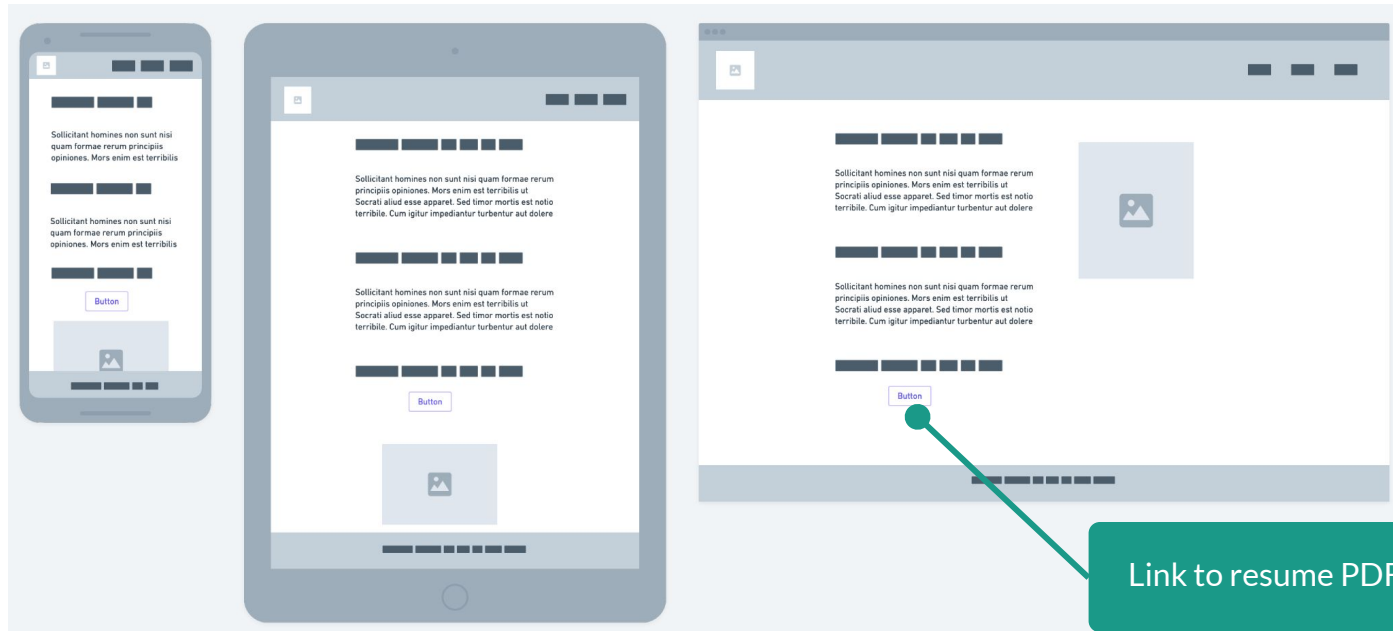

- Navigation bar
- Engaging blog cards
- Large links to important pages
- Hyperlinks with hover effects
- Mailto - email address
- Logo for personal branding
- Tab favicon
- Social media links

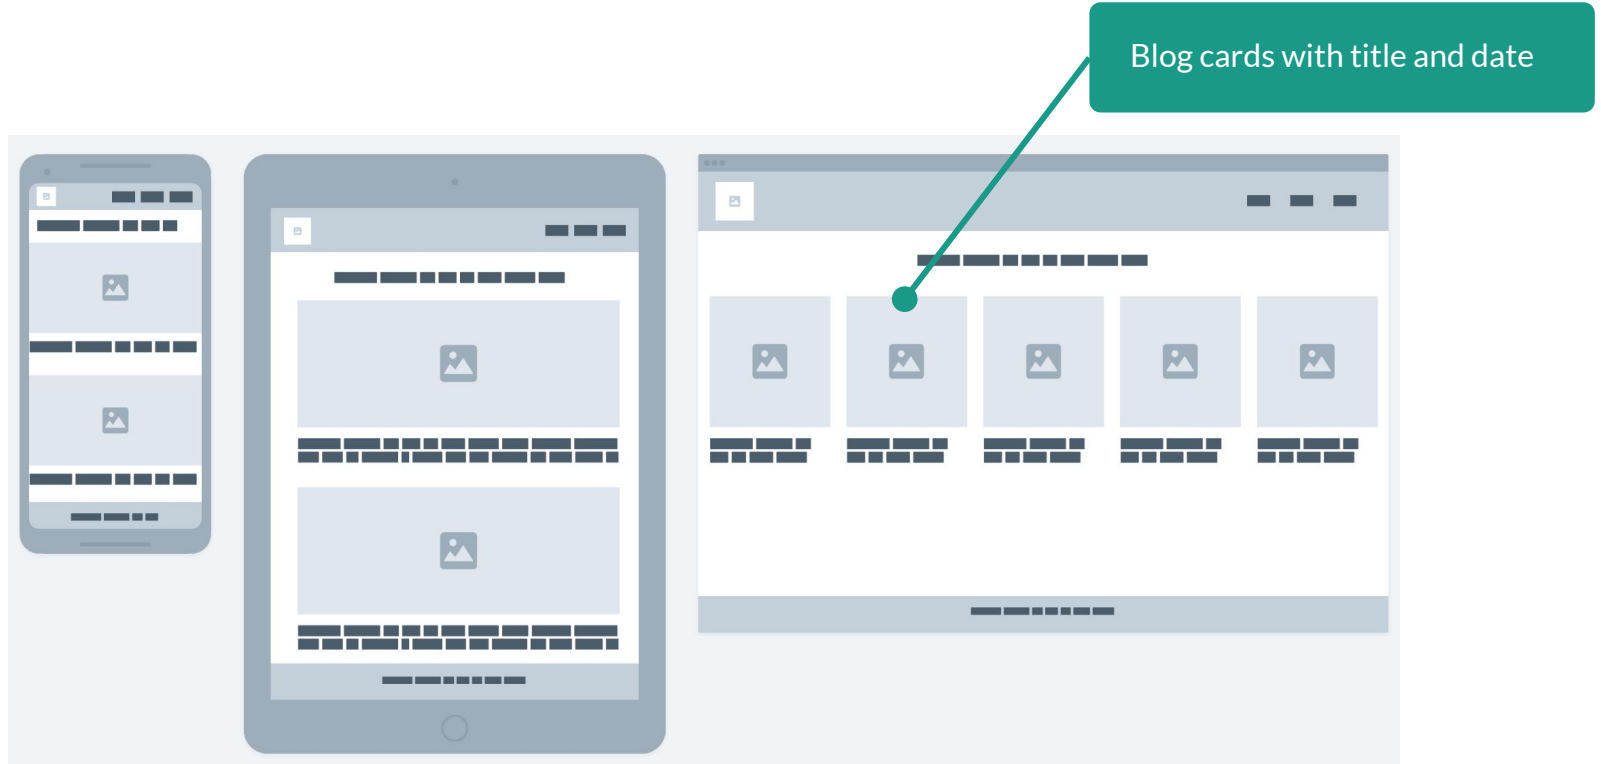

Index Page - Wireframe

About Page - Wireframe

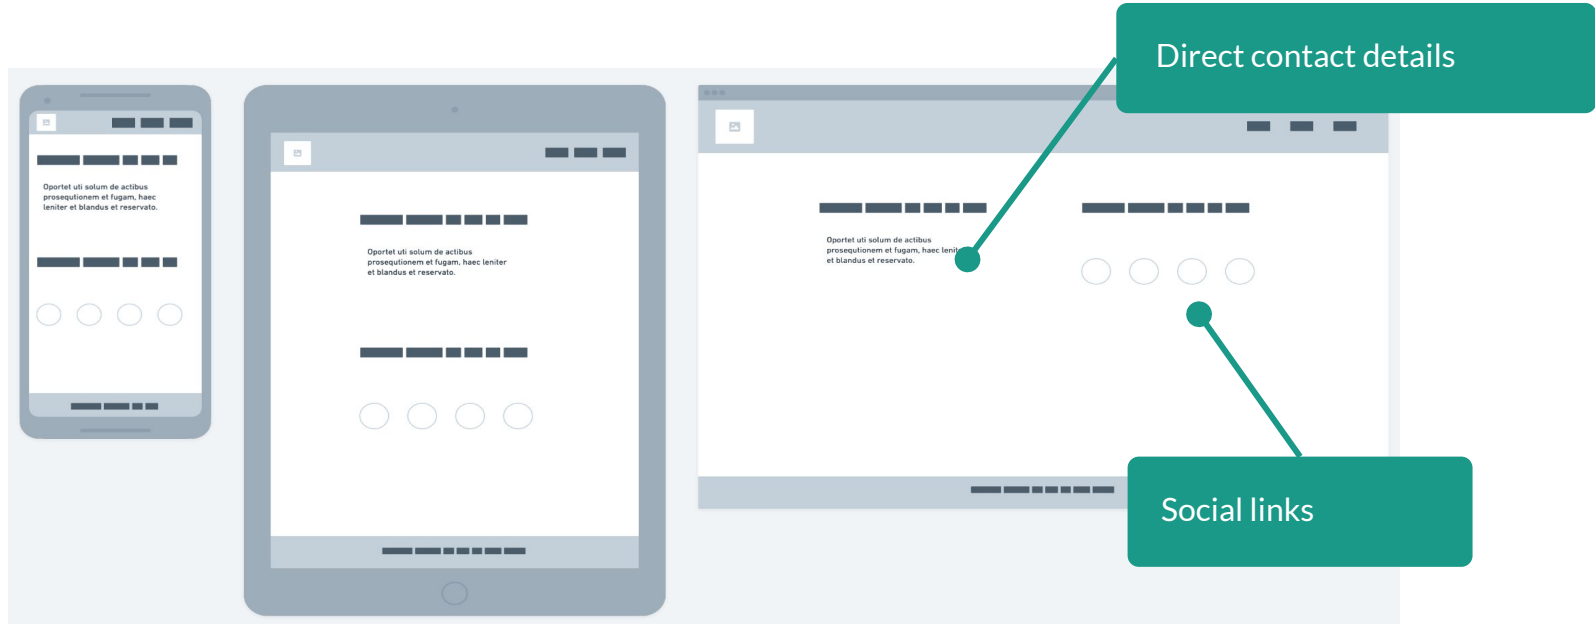

Blog Post Page - Wireframe

Contact Page - Wireframe

Learnings

- Highlighted the importance of having a design concept early
- Colour theme, written content, and images, later in development
- Polypane, multi device window browser
- Enjoyed creating a tangible product

Thank you
